## Declaration of Conformity

For: EMC arrangements 2014 / 30 / EU in accordance to European Commission guidelines

Groschopp motors and systems are no active service elements, but instead are defined as components or sub-assemblies in accordance to EMC guidelines.

Groschopp motors and systems are not designated to end users, but are incorporated into machinery and electric facilities.

Therefore, Groschopp motors and systems are not subjected to the EMC arrangements.

EMC arrangements are therefore not necessary.
